Welcome to the Internet Barter Exchange, the internet's powerhouse for bartering. Founded in 2006 by the brain child of config.com to help promote e-commerce clients we have since reorganized our system to better serve our clients. Using the industries most powerful software called Joomla! bartering on the internet is easier and faster. The Joomla! platform allows the users to trade online, network with their peers and check there account via cell phone. Bartering offers the opportunity to participate with less risk of the potentially high setup fees and monthly expenses of membership. Small or startup businesses can stimulate economic growth using barter as a means to buy or sell their services or products without a big cash layout.

Larger more established businesses can benefit from bartering because it can help boost there bottom line. Networking with our peers in the barter community greatly improves our clients contact base thus improving their chances to sell products or services faster and a lot easier. Our open based software gives our clients the opportunity to post and market without delay, you control every aspect. For a small one time setup fee of \$250.00 and a \$20.00 monthly recurring fee for each partnership you choose and you are off and running.

Our brokerage fee is the most competitive in the industry; just 5% cash on any buy or sell transactions. An account using our licensed Internet Based Barter software with the post and market your own products and services on-line through a partnership with the following companies:

1) OrangeBee Monetary System <http://www.orangebee.com> monthly fee:\$20.00

2) World Trade Banc (BCI online software) <http://www.theinternetbarterexchange.com> monthly fee:\$20.00

3) Internet Barter Exchange (DoBarter online software) <http://www.internetbarterexchange.net> monthly \$20.00

Membership services include: An account using our licensed Internet based barter software with the ability to post and market your own products and services on-line through a partnership with the

OrangeBee Monetary Systems <http://www.orangebee.com> and or The World Trade Banc at URL: <http://www.theinternetbarterexchange.net> with available credit for all new members.

A secondary exchange using different on-line software with no available credit is also an available option through our <http://www.internetbarterexchange.net>

Leverage our memberships in other barter exchanges which include; <http://www.tradewindexchange.com>, <http://www.imsbarter.com>, <http://www.itex.com>, and <http://www.nationaltradebanc.com> for maximum exposure and purchasing ability.

Our Canadian friends may enjoy participating and learning about barter through the [TradesonDisplay.CA](http://www.TradesonDisplay.CA) exchange.

For those interested in using barter for non-profit 501 c3 you may be interested in visiting <http://www.charitytradebanc.org>

"If I had my life to live over again, I would elect to be a trader of goods rather than a student of science. I think barter is a noble thing."

Albert Einstein
